—J. D. Baker has been appointed division passenger agent of the Burlington, with headquarters at St. Joseph, succeeding R. H. Crozier, who resigned a few weeks ago to enter a department of his Alma Mater. He is spoken of very highly and belongs to a family of railroad men.

—Smith Meadows, of Clay township, is a splendid young man, and is the verdict of all who know him. As to qualifications we believe he is fully equipped to perform the duties of Recorder of Deeds, a position he is seeking through the Republican nominating convention. He comes of good Republican stock and from a good township, and should he succeed in getting the nomination there can be no good reason why he should not be elected.

—A mammoth ice pack, it is said, has formed in the Big Horn river at Basin, Wyo., causing the river to overflow and flood the low lands. Floods in the Big Horn basin are usually the first warning of probable high water in the Missouri river.

—Mrs. A. J. Brock attended the general conference of the M. E. church, at Grant City, for a couple of days last week, remaining over Sunday, and returning with her husband Tuesday evening of this week. They were formerly stationed there, and of course Mrs. Brock had a delightful visit.

—There is disposition we are sorry to say, on the part of a few, to think they should have "the price" of their hunter's license returned to them, because of the late ruling of the court of appeals. But to all those we would say that your license is good for one year, and you can hunt anywhere within the state.

—Robert Howell, while working around his new gasoline engine, Wednesday morning of this week, March 28, 1906, had the misfortune to get his left foot caught under the piston rod, and but for the failure of the wheel to make another revolution, he would have suffered a much more serious accident. As it was, the fourth toe was severely mashed, and his shoe badly wrecked.

—Elmer W. Hunter, of Clay township, would like very much to be the Republican party's candidate for Recorder of Deeds, and he officially asks for the nomination in this issue of our paper. Mr. Hunter has been in our county all his life, and has been following the plow ever since he was big enough and old enough. He belongs to that class of Republicans that always gets in line and carries in that line the banner upon which is inscribed "loyalty to party." He is a young man of splendid habits and every way qualified to fill the office of recorder of deeds.

—The Burlington railroad has had quite a force of workmen busy for the last week in making soundings along the river front at Parkville. Their purpose was to determine the depth of "bed rock," and learn, if possible, what was causing the slides that have been bothering them here for some time past. Soundings were made at many places extending from the stockyards to Mill Creek, and usually two or three holes would be bored in line north and south in order to determine the "dip" of the ledge toward the river. The depth of the stone along the river front varies from a little over thirty to over forty feet between the points named, and in some places the "dip" is as high as 12 feet in a distance of forty feet. The formation just above the rock is a blue clay, slick, slimy and soapy, and hard to control when once it starts sliding. The Burlington may have some trouble ahead of them, as indicated from the findings of this party of investigation. —Platte County Gazette.

—Struck blind by the constant glare of the sun's rays, reflected from the snowy fields along the public roadway, Samuel Brown, mail carrier on rural route No. 3 at Hopkins, groped his way to a farm house Saturday morning and begged the inmates of the home to telephone to town concerning his plight. Brown had started out in the morning suffering somewhat from the effects of the same trouble, which he had experienced during the entire week when the sun was shining. He hoped to get along, however, without more serious results than great inconvenience in discharging his duties. But the sun Saturday was shining more brightly than had been the case at any other time during the week. The carrier had increasing trouble from the start, and within two hours after leaving the office Brown found he had completely lost his power of sight. —Maryville Republican, March 23. We are glad to state that Mr. Brown has, now, nearly recovered his sight, and it is thought that in time it will be fully restored.

KREEK & HASSNESS.

—Presiding Elder, the Rev. J. J. Steininger, will be here to conduct quarterly meeting in the German M. E. church, next Sunday. Service will be on Sunday morning at the Nodaway church, and at 3:00 p. m. in Oregon.

—They will come back every now and then, E. M. Ausin, we understand, has retired from his business connection at Wagner, Ind. Ter., and is now back in Holt county. It is greatly to be hoped that he may decide to again engage in business in "these parts."

—The "A" class in Miss Jesse Schulte's room of our school, went out to her home Monday evening, taking along baskets of good things to eat, and took possession of the house with the consent of her mother and "bigger" sister, and made things lively for about three hours. Miss Jesse was surprised, and those of the Schulte family at home, did their whole duty in making it very pleasant for the little ones.

—Doctors Proud, of this city, Bullock, of Forest City, and Kallenbach and Davis, of Craig, attended the annual meeting of Missouri Valley Medical Society, which was in session at St. Joseph Thursday and Friday of last week. They returned home feeling greatly benefited by having an opportunity to listen to papers read by some of the great men of medicine and surgery of this country.

—John Ingraham caught up with his 76th mile post on Thursday last, March 22, and the occasion was observed by a number of his old personal friends being invited to take dinner with him. Mother Ingraham was assisted by Mrs. Mollie Baker, and they served a most excellent dinner, which was greatly enjoyed. The time was most profitably passed by talking over the long ago; of the scenes in around Nashville where Mr. Ingraham left an arm in defense of the Union, three of the guests present having participated in that battle.

—The Burlington railroad suffered quite a loss Wednesday evening of last week, March 21st. The trestle work over Fuller slough, near the Bilby ranch, one mile north of Craig caught fire about 5 o'clock and about 60 feet of the track was burned out in a short time. The T. V. passenger got into Corning about 10 o'clock p. m. The Flyer and T. V. train transferred each others passengers, baggage and mail. The night trains also transferred each others passengers to one another. By 7 o'clock Thursday morning a temporary track was laid and trains made their regular runs. New trestle is now being put in and the Burlington will again be itself in a day or two. —Craig Mirror.

—The M. E. conference which was in session last week at Grant City, completed its work on Saturday last, and adjourned to meet in St. Joseph a year hence. The Bishop announced the following assignments of those who are more or less close to our people. We are sorry that we are to lose Rev. Brock, who will go to Hopkins. His stay here has been a very pleasant and we believe profitable one, not only to his church people, but to all our people. He is an earnest, zealous Christian gentleman, and we trust it may always be well with him. Rev. Crampton, who has been at Albany, will be given the charge at Braymer, C. E. Petree goes to Marcelline, C. J. Warner to Unionville, J. W. Caughlin to Maitland, John Gilles to Mound City. T. J. Ebyart will come to Oregon. In 1877-79 Rev. S. H. Enyeart, a brother, was in charge of the church here. The appointee for this place, we understand, is about 60 years of age, and is an earnest, Christian gentleman. He will occupy his pulpit in this city, next Sunday. You are invited.

—Otha Acton and wife, of Hickory township, will leave this week, for Idaho, where they expect to abide in the future. Ira Drake, of Benton Township, left last week for Basin City, Wyo., where he will farm the 160 acres he owns up there. John Metzgar and family, accompanied by Miss Pearl Burger, left last week for their new home in Alberta county, Canada; Henry Lyons, also went along to try that country.

—In the announcement of George F. Seeman, as a candidate for County Collector, the Republicans of our county, have in every respect an idea candidate. He comes of rugged German stock, a son of a veteran, and a young man of thorough business training, and of the very best habits. No party can make a mistake in making up its ticket when they place such men as Mr. Seeman upon it, for he embodies all those essentials that contribute to make a ticket strong and worthy of support. Mr. Seeman is no sulker, for although failing of nomination two years ago, he was in the fight from beginning to end for his successful opponent.

—George Rodgers, a feeble old man of 74 years, was picked up by the police Thursday last week in St. Joseph while aimlessly wandering around the outskirts of the city in Walker's addition. He was taken to the police station, but no papers were found on him that would reveal his identity. He gave his name as George Rodgers, but he seemed to be suffering from senile dementia and could not give a good account of his past actions and relatives. He said that he lived in Holt county and that he came to St. Joseph in December, and has been staying at the Homan house ever since. The proprietor of the hotel, however, stated that no man of Rodgers' description had ever stopped at his house. Rodgers had no money when arrested, his only belongings being a pruning knife and some torn cloth. He told the police when arrested that he was going to prune trees. He was sent to Maitland on the evening train of that day, where it is said he had a niece living. A few years ago, an aged man named Rodgers was here and had been pruning for some of our people; the Woman's Union employed him to clean up the old cemetery, and he did a good job. It is probable that this is the same party.

MILLINERY OPENING

TO THE LADIES OF OREGON AND VICINITY:—I will have on display, Friday and Saturday of this week, everything new and the newest of Street Hats, Tailored Hats and Trimmed Hats.

MRS. E. NETHERLAND.

—S. B. Rimel, of Nodaway county, under sentence for horse stealing in West Virginia, and charged with many other crimes in other states, escaped from the officers of the law, March 14th while being taken to the West Virginia penitentiary at Moundville. No trace of him has since been found, although officers in a half a dozen states are searching for him. In addition to his West Virginia sentence, Rimel is also under indictment for having set fire to the Franklin jail. He is charged in Nodaway county with cattle stealing, in Montana with horse stealing and in Wyoming with the same crime. —Maryville Republican.

—The name of another splendid Republican appears in our announcement column this week, asking recognition at the hands of the Republican nominating convention. Fred J. Dankers, of Lincoln township, asks for the nomination of Collector of Revenue. No more worthy or deserving young man is to be found within the confines of this county or any other county. He was born and raised in this county, his father, Henry Dankers' having come to this county in 1841. While Lincoln is a small township, there are no more loyal people to their party than the Republicans of Lincoln, and no more intensely loyal people to their party than Henry A. Dankers and his splendid family of boys. No party makes a mistake when it nominates such worthy young men as "Fritz" Dankers.
